PREFACE

THIS book presents in print the records contained in the volume of probate records called "Will &c. No. 2, From Sept 12 1716 to Jan 7 1728/9," and continues the work authorized by the City Council of the city of Providence on March 6, 1891, when the following Joint Resolution was adopted:

"RESOLVED, That Horatio Rogers, George M. Carpenter, and Edward Field, are hereby appointed record commissioners, who shall serve without compensation, for the purpose of collecting and printing the early records of the town of Providence. And said commissioners are hereby authorized to expend the sum of one thousand dollars for collecting and printing said records, said sum to be charged to the appropriation for printing."

Since the passage of this resolution appropriations have been made from time to time for the continuation of the work.

The methods employed in reproducing this volume in type have been the same as those heretofore used, and for convenience they are repeated here. The figures at the top of the

pages and enclosed in brackets indicate the paging of the present volume; the heavy figures enclosed in brackets represent the paging of the original book as it now stands; words or letters printed in parentheses are so found in the original; brackets enclosing blank space, thus [ ], signify something is missing or illegible in the original.

An index to subjects, proper names, a miscellaneous index, and an index to Indian names are added.

It will be observed that a note at the beginning of the index to subjects, explains certain references in such index.

During the period while this book has been going through the press, the work of reindexing the probate records of Providence, and the printing of such index has also been in progress. In preparing this Probate index each estate was designated by a specific number, and it has been thought that a reference to such number in this book would be a convenience to those who have occasion to examine its contents, and such number will be found in the index to subjects.

HORATIO ROGERS,
EDWARD FIELD,

Record Commissioners.

PROVIDENCE, Sept. 4, 1901.

[1] *Diatessaron.* An electuary, into the composition of which entered four medicines ; the roots of *gentian*, *aristolochia rotunda*, *bay-berries* and honey. The whole was incorporated with extract of juniper.

Diatessaron is tonic, and it was formerly employed in cases of stings and bites of venomous animals. (Dunglison's Medical Dictionary.)
